OCTOBER REFRESHMENTS

Carol and Renata

President's Corner
By Jim Basinger
October 2010

As I take over the office of President Of the Pilchuck Camera Club I would like to thank Steve, Kevin and Janet for there service of holding Office for the past 2 Years. Each one of them done a terrific job of their duties.

I would also like to thank Anna, Tom, Shirley and Harvey for stepping Forward to take over the Offices vacated from our past officers. It Is good to get new people to hold office.

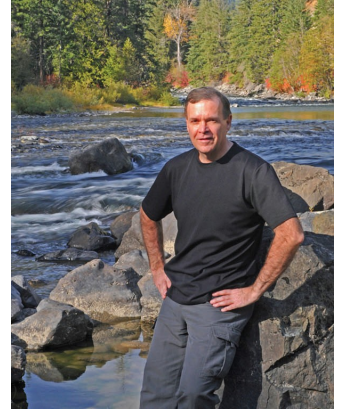

As far as the Standing Committees that the President is suppose To fill. I hope each one of the present committee chair persons will continue in that role.

I have talked to 2 of our members about what they would like to see our Club do. Both of them said they would like to see more things to help us learn to be better photographers or be better in processing our photo's. I would like to hear from the rest of you about what You would like our club to do different. Some of the ideas that I have heard are critiquing our images even if we have to do it our selves. In my opinion we do not learn a lot from just looking at the pictures and hearing what score they got, I would like to know why they got that score. I also heard about Processing images, how to add a good sky to the blank ones we usually get around here.

PILCHUCK CAMERA CLUB

**LOOK MA NO FEET
BY STEVE LIGHTLE**

"Look Ma, No Feet' was taken at Everett's Walter Hall skate board park on August 15, 2010. I like this park better than others I've been at as the the action tends to be from east to west with most of the jumps up the hill facing towards the afternoon sun.

The settings for the photo were 70 MM on a 70 - 200 zoom, ISO 400, 1/500th second at an aperture of 7.1 This combination allows me to stop the action and to have sufficient depth of field that spot on focus is less important. Camera was set to continuous focus with high speed advance.

The image was cropped slightly on the right hand side (as you're looking at it) to remove the shoulder of another skate boarder and I also cloned out the shadow of that skateboarder. There was a rail on the left side of the subject near his feet that I also removed as it drew your eye away from the same subject.
