## Cover Image - 'Deception Pass Bridge' by Andrea Hitch

I shot it with a Canon T1i, Canon EFS 55-250mm lens for 1/180th sec, at 250mm and f/9.5. I was able to make it to the Cornet Bay area one day before the club was scheduled to be there due to my own schedule issues. I am so glad the club made me aware of this opportunity since I am new to the region. I had even forgotten to take my tripod for the shoot, but decided to do my best without it. I don't remember the birds being in this image when I took it, which made their presence a happy surprise when I viewed the images later. I did use Fast Stone to correct the horizon and decrease the brightness of the sun to help it become a better image.
